The Richmond Country Amateur Radio Club website, www.k4rnc.org, is back up and running successfully after Scott hosted the website on a private server. The site is receiving more "hits" as shown by the visitor counter on the main page. If you have not activated your password please do so and look around the website. Members are able to post comments in the Members folder after logging on. Problems with passwords? See Butch N4AWP.

The Repeater Kit and Rack Mount has been received. Also Scott has ordered and received the software and the interface cable is in process. Butch has assembled the Repeater Kit during most of a Saturday. (Pic attached) The club is fortunate to have members that will donate their time and effort for the good of the club!
