Still no action on FCC website on the ARRL petition seeking to expand privileges for Technician Class licenses on the 80, 40, and 15 meter bands. The proposal adds digital privileges in these bands and 275kHz for HF phone privileges. [www.arrrl.org/TechnicianEnhancement](http://www.arrrl.org/TechnicianEnhancement).

Max N4CGC has purchased a projector and has been able to match it up with his Win7 laptop. Plans are to show a 15 - 20 minute YouTube video dealing with Amateur Radio during our regular monthly meetings. Max was also able to purchase a roll of 500 feet of RG-213 at Dayton for \$366.99 delivered, with free shipping. It has already been received and is stored at Butch's shack. Club members needing to purchase coax can contact Butch for details.

Ben WA4BCS successfully underwent spinal surgery last month at Moore Regional. He is on his way to a full recovery and is finally able to get around a bit.
